LEGEND

Fire Weather Zone Border
(Shire of Dandaragan)

Fire Weather District border
(State Government)

What's Changing?

The Shire of Dandaragan now uses five fire weather zones to better reflect local conditions across our district.

These zones help residents and landowners identify the fire weather information that is most relevant to their location.

Why this Matters?

- Weather conditions can vary across the Shire, especially between coastal and inland areas.
- The new zones provide more locally relevant fire weather and Harvest Ban information.
- Knowing your zone helps you stay informed and prepared during the fire season.

Fire Weather Zone Localities

- West Coastal
(Jurien, Cervantes, Nambung, Grey, Wedge)
- North Central
(Nambung, Hill River, Badgingarra)
- South Central
(Nambung, Cooljaroo, Cataby)
- North East
(Boothendarra, Badgingarra, Dandaragan)
- South East
(Dandaragan, Cataby, Yathroo, Regans Ford)

Know your zone and monitor official fire weather information, warnings and local updates during the bushfire season.
